

zinejs Demo Zine

A totally serious document for flipping through
your browser like it owes you money.

Turn pages. Judge the curl. Repeat.

Page 2 - Legal-ish

By reading this spread you agree that:

- * PDFs are just spicy JPEGs in a trench coat
- * Corner grabs are a personality trait
- * "Just one more flip" is never just one

Two Paths, One Curl

Baseline path: works everywhere, no GPU required.

GPU path: fancier curl, sharper zoom, same API.

Your device picks one. You pick coffee.

Fold Math Appreciation Society

foldFromPointer() saw your drag and said:

"I know exactly where the crease goes."

We do not question the crease. We honor it.

Hit Test Hotline

corner -> you are about to cause drama

page -> respectable middle-of-book energy

outside -> touch grass (or the scrollbar)

State Machine Fan Fiction

idle -> dragging -> animating -> idle

The engine went through a whole arc while
you moved your mouse three pixels.

Character development: immaculate.

Virtualizer Support Group

Only mounts spreads +/-N around you.

The other pages? They do not exist.

Schrodinger's flipbook.

Accessibility Wins

<- -> Home End - keyboard gang rise up
prefers-reduced-motion: instant swap,
zero curl guilt. We see you.

Zoom Mode Switcheroo

scale = 1 -> flip like a civilized person

scale > 1 -> pan like you're inspecting

a map for buried treasure (it's page 12).

PdfSource (Phase 3)

PDF pages decode on demand - loaded lazily,
like your motivation on Monday.

Re-render on settle for crisp zoom. Chef's kiss.

Click To Flip Settings

'edge' - tap the sides like a pro

'half' - bold clicks in the danger zone

'off' - you only trust corner drags

Double-Click Zoom Lore

Default cycle: 1 -> 2 -> 4 -> 1

Ctrl/Cmd + wheel: zoom at cursor

Plain wheel: rejected. We have standards.

Bundle Budget Haiku

Core fifteen KB

CSS chunk twelve - lazy load

Agents rejoice now

Demo Checklist

Does the book open? Good start.

If this PDF loads, the demo works.

If it curls, we celebrate.

ZineDeck Teaser

Someday: upload PDF, get embed.

Today: you npm install and flip sample.pdf.

Same joy, fewer SaaS emails.

RTL Spread Energy

direction: "rtl" flips the whole vibe.

Same engine. Different drama.

International curl diplomacy.

Cover Mode Chronicles

Blank first page? Hard cover fantasy.

Odd page count? We spread-model it.

Your PDF does not need to be perfect.

E2E Test Confessions

Playwright dragged a corner at 2am.

Pinch zoom switched modes. Keyboard passed.

This page is your regression trophy.

Almost The Back Cover

Nineteen pages of premium demo content.

One page left to flip before enlightenment.

Spoiler: page 20 is still funny.

THE END (of sample.pdf)

Thanks for flipping with zinejs.

Ship your catalog. Flip your menu.

Tell the crease we said hi.

- generated for the demo app
